The source of Soane's serif-less letterforms?

Rappresentanza nella figura I del *Illopus*, di Nerone, ed insieme lo *Stadio*, l'*Odeo*, ed il *Tempio* della Gente Flavia, fabbricati da Domiziano. 1. *Sala* all'illuso; 2. *Arco*, con rotonde, e cubicoli per varii usi. 3. *Tempio* di Nerone. 4. *Piazza* dinnanzi al *Tempio*. 5. *Sala* con anelli per i coni: 6. 6. *Stadio* in pietra nel tufo. 15 m. 16. *Portico* con colonne.

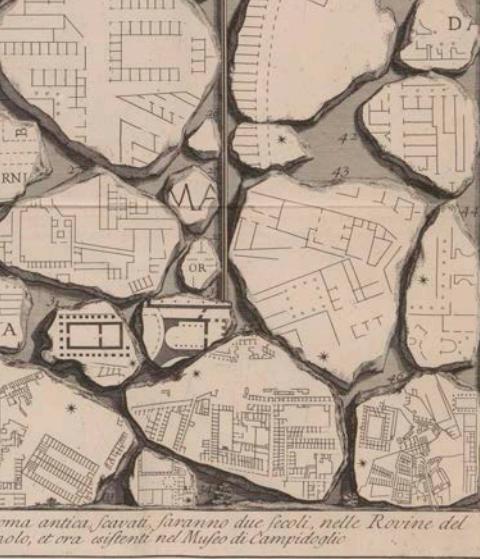

Rappresentasi nella figura I il Ninfeo, di Nerone, e insieme lo Stadio, l'Odeo, ed i Tempì della Gente Flavia, fabbricati da Domiziano. 1. Salita all'Infeo. 2 Atrio con vestiboli, e cubicoli per varj usi. 3. Tempio di Nerone. 4. Piazza dinanzi al Tempio. 5. Sala con emicicli per i conviti. 6. Stagno incavato nel terrn vergine del Monte Celio, e che riceveva l'acqua da magnifice fontane, ornate di Tritoni, cavalli marini, delfini, e gruppi di Statue. 7. Portici circolari situati sopra il medesimo Stagno. 8. Celle sul piano inferiore del Ninfeo. 9. Aquedotto del Ninfeo. 10. uno degli archi dell'aquedotto, ove si legge l'avanzo della iscrizione rapportata nella fig. II. e supplicata nella figura III. colle lettere NERO secondo l'interpretazione la più probabile, che tante nè più nè meno doveano occuparne lo spazio, ov' elle mancano, venendo così a comporre la parola NERONIONIANA, la quale, tutto che sia un solecismo per l'incremento delle due sillabe ONI, incompatibile ne' secoli della latinità, può nondimeno esser ciò derivato dalla inavvedutezza degli artefici nel comporla. 11. Stadio di Domiziano. 12. Tribune situate al piano dello Stadio, delle quali si da la pianta in forma grande alla fig. IV. le medesime hanno al di dietro un andito fattovi forse per isfogo dell'umidità che vi cagionavano le acque del Ninfeo, e del Monte Celio acciò queste non danneggiassero gli stucchi de' quali erano adorne le stesse tribune al dinanzi. 13. Tempio della Dea Pallade. 14. Tempio di Domiziano. 15. Tempio di Vespasiano. 16. Odeo. 17. Serraglio delle fiere fabbricato da Domiziano ad uso dell'Anfiteatro. 18. Fonte o sìa lago già detto del Pastore. 19. Arco di Costantino. 20. Anfiteatro Flavio. 21. Aquedotto di Claudio. 22. Odierna Chiesa di S. Gio. e Paolo. 23. Avanzi della Casa di Scauro. 24. Avanzi della Casa della Famiglia Anzia. 25. Avanzo degli alloggiamenti de Soldati pellegrini. 26. Altra parte dell'aquedotto del Ninfeo con bottino. 27. Chiesa di S. Stefano rotonda nel suo primo essere.

Piranesi Archit. d.s. inc.

### English Translation:

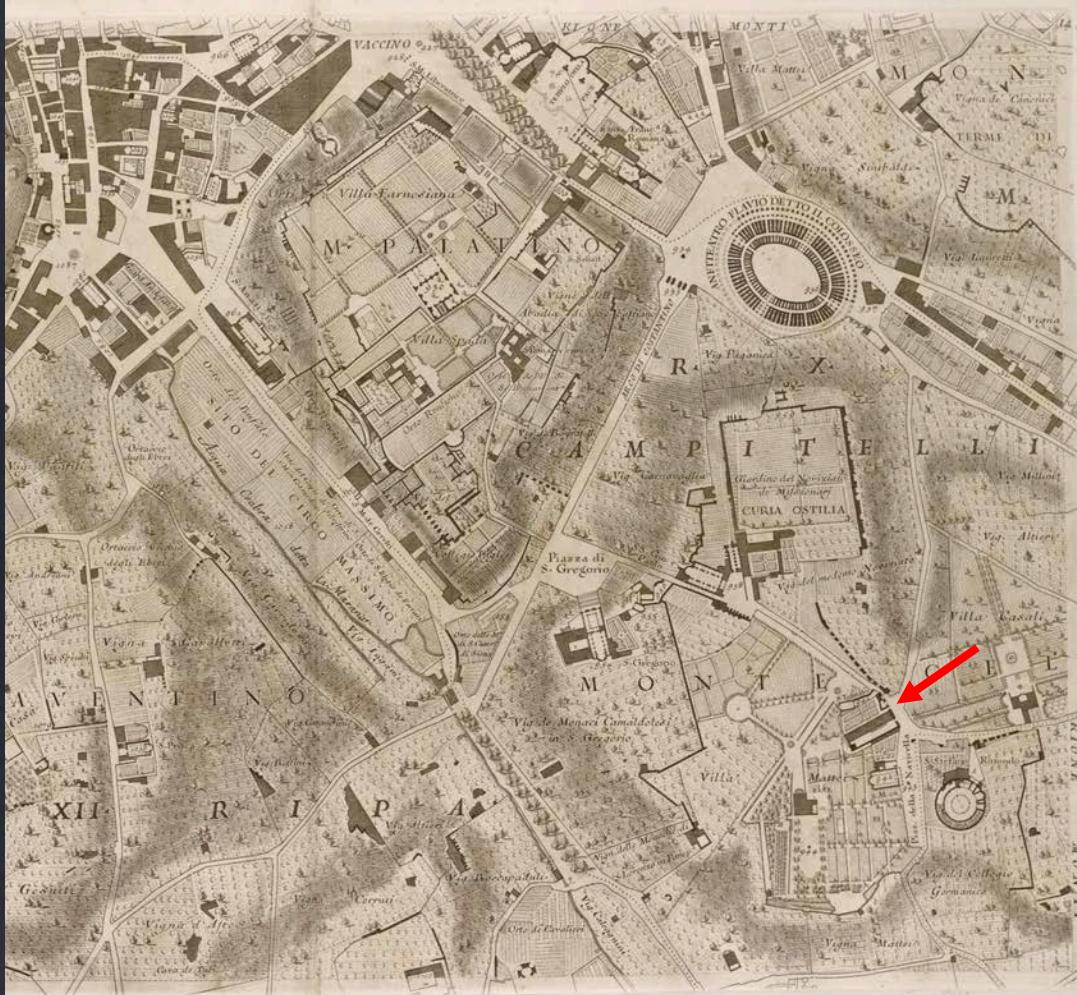

10. one of the arches of the aqueduct, where one reads the rest of the inscription shown in fig. II. And supplicated in Figure III. With letters NERO according to the most probable interpretation, that many more did not want to occupy the space, or they lack it, thus composing the word NERONIONIANA, which, all that is a solecism for the increase of the two ON-I syllables. Incompatible in the centuries of Latin; but it may be derived from the inevitability of the craftsmen in its composition.

Dear Sirs      for Mr Chanters London August 5<sup>th</sup> 1774

Your letter of the 20<sup>th</sup> of last came when I was in France and I have since my return found no time to answer it till now.  
our Students at Rome are right to make abettors use of their time now than they formerly used to do, for unless they Study hard and Acquire Superior talents, they will do little here; this Country swarming with artists of all kinds, that unless a man does much better than his neighbours, he will have but an indifferent chance of making his way.

It gives me great pleasure to hear of your perfect recovery you will now be able to prosecute your Studies properly, not by thinking proper to Study for you, as some of our famous Architects here did, but by Drawing, measuring, and observing every thing upon the spot your self, always see with your own Eyes, and though it is right to hear the Judgment of others, yet never determine but by your own self, not rashly, but after repeated observations for our perceptions are not always Just. it is ~~safely~~ said that taste has no rules, but this, the most vulgar opinion is erroneous; it has many; some pointed out by books, but more that are not mentioned, which you must find out, if you would work with certainty at all times. it is only by repeated and careful Observations that you can arrive at this knowledge, which indeed will lead you to the works that have stood the test and been the admiration of the ~~rest~~ ~~rest~~ but your own penetration must discover their true beauties, and the secrets by which they were produced. Donot, as some have done, begin your Studies when they ought

to be left off, and instead of forming your Self upon those noble remains  
whence the great Masters of the 11<sup>th</sup> & 12<sup>th</sup> Centuries collected their knowledge, about of Paulielli, Tugar and some blockheads of less note  
strike away your time, in collecting little poor Ornaments and extravagants avoid them all, as you must know me with all the later  
forms, from the remains of barbarous times, our task here has already  
been sufficiently impeded by this unlucky mistak... w i s

well the same view, correctly if you c  
spirit and taste. converse much with  
particularly foreigners, that you may ge  
set for those who have most reputation  
forget not Pisanesi, who you may see  
of Matteo, extravagants this true, often  
you may gather much information,

Study them carefully and correct that luxuriant bold and perhaps  
extravagant style, which you will have acquired at Rome Florence  
Genoa and Pologna by this simple charte ~~but~~ but rather than wear  
form if you can a style of your own in which endeavour to avoid  
the faults and blend the perfections, of all.

Mosely has never been famous for

than ever you will see some

able performance there and then

Architects of Rome excepting Salvi who had indeed no general

principles to guide him yet sometimes fortunately hit upon the

right as appears by parts of his fountain of Trevi & parts of his

Domenican Church at Noto.

You will find great advantage

in the decorative part by sketching or drawing accurately many

fragments which lie scattered in all the Villas about Rome &

in the Environs of Naples. Draw in the Academy the human figure

with the same view, correctly if you can, but at least with

spirit and taste. converse much with Artists of all Countries

particularly foreigners, that you may get rid of national prejudice

set for those who have most reputation young or old, Amongst whom

forget not Pisanesi, who you may see in my name, he is full

of Matteo, extravagants this true, often absurd, but from his own following

you may gather much information.

Study painting and Sculpture thoroughly, you cannot be a master in your own art

without great judgement in these, which are so inseparably connected

with it. Study them with regard to the knowledge of Masters as

an ornamental & profitable science, but for your own use study

them in a higher light, have neither time nor patience to

write any more at this time but if you think my advice

can be of any use call for it freely on all occasions and believe

me to be

you are now apprehended worse

than ever you will see some

blockheads of less note
